Overview of the Subway Riddler Quest

In the heart of Arkham City's underground, a network of abandoned subway tunnels houses the infamous Riddler's latest scheme. After the main storyline, you'll discover a hidden door in the **Subway Station** that leads to a series of cryptic riddles. Solving each puzzle unlocks a piece of the Riddler's plan and grants you a trophy. The quest is split into three distinct stages: the **First Riddle**, the **Second Riddle**, and the **Final Riddle**. Each stage has a unique theme and requires different investigative techniques.

Trophies You'll Earn

Completing the Subway Riddler quest rewards you with a set of trophies that are both visually impressive and useful. Here's a quick rundown:

- Riddler's Challenge (Silver) – Earned after solving the first riddle.
- Mind Over Matter (Gold) – Awarded after the second riddle.
- Final Puzzle (Platinum) – The ultimate trophy for finishing the entire quest.

These trophies are not just for bragging rights; they also provide a permanent badge on your character's profile, showcasing your detective prowess to other players. Additionally, each trophy unlocks a special **Riddler Theme** for the game's UI, giving your interface a unique aesthetic.

Strategic Approach to Each Puzzle

First Riddle: The Code of the Subway

When you first enter the tunnel, you'll notice a series of graffiti tags and a locked door with a keypad. The Riddler

has left a clue: *“The numbers that bind the city’s veins are the key.”*This riddle requires you to find the correct four-digit code.

1. Locate the Train Maps: Search the tunnel walls for faded train maps. They’re hidden behind broken posters. Use the Detective Mode to highlight the maps.
2. Identify the Main Lines: The Riddler’s clue refers to the main subway lines. In Arkham City, the primary lines are the Blue, Red, Green, and Yellow lines.
3. Translate to Numbers: Assign each line a number based on its color order: Blue = 1, Red = 2, Green = 3, Yellow = 4.
4. Form the Code: Combine the numbers in the sequence of the lines that appear on the map. For example, if the map shows Blue !’ Red !’ Green !’ Yellow, the code is 1234.

Enter the code on the keypad. The door will unlock, and you’ll receive the **Riddler’s Challenge** trophy.

Second Riddle: The Riddler’s Riddle

After passing through the first door, you’ll encounter a series of panels each displaying a symbol. The Riddler’s next clue reads: *“The answer lies in the echoes of the city.”* This puzzle tests your memory and observation skills.

1. Listen for Echoes: Use the Sound Tracking ability to follow echo cues from the station’s speakers.
2. Match Symbols to Sounds: Each echo corresponds to a symbol on a panel. For instance, a deep bass note matches a circle, while a high whistle matches a triangle.
3. Activate Panels in Order: Once you’ve matched all symbols, press the panels in the order they appeared in the echo sequence.
4. Unlock the Vault: Completing the sequence opens a vault containing the Riddler’s plan. You’ll receive the Mind Over Matter trophy.

Final Riddle: The Ultimate Puzzle

The final stage is a culmination of all the clues you’ve gathered. The Riddler’s final message: *“Only the keenest mind can piece together the city’s heart.”* This puzzle combines the previous steps with a time based challenge.

1. Reassemble the Map: Use the fragments collected from earlier stages to reconstruct the complete subway map.
2. Find the Hidden Switch: The map points to a hidden switch under a collapsed platform. Use the Stealth Mode to avoid patrols.
3. Activate the Switch: Once the switch is activated, a hidden corridor opens. You must run through it before the lights flicker out.
4. Complete the Circuit: At the corridor’s end, you’ll find a circuit board. Connect the wires in the correct order based on the map’s colors.
5. Celebrate Victory: Successfully completing the circuit triggers a cinematic reveal and awards the Final Puzzle trophy.

Pro Tips & Common Pitfalls

- Use Detective Mode Early: Activating Detective Mode as soon as you enter the tunnel helps you spot hidden clues that are otherwise invisible.
- Save Frequently: The puzzle sections can be time consuming. Save often to avoid losing progress if you’re interrupted by patrols.
- Watch the Audio: The echo puzzle relies heavily on audio cues. Make sure your volume is turned up and consider using headphones for clarity.
- Patience is Key: Riddler puzzles are designed to be challenging. Don’t rush; take the time to analyze each

clue.
